DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-8, drawn to suspension subframe, classified in class 280, subclass 788.
- II. Claims 9-19, drawn to method of making a suspension subframe, classified in class 29, subclass 897.2.

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the suspension subframe could be made by fixing a plurality of tubes together other than by welding, such as with mechanical connections.

A telephone call was made to Michael P. Chu on Feb. 24, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 3616

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to George D. Spisich whose telephone number is (703) 305-6495. The examiner can normally be reached on Monday to Friday 6:00-3:30 except alternate Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Paul Dickson can be reached on (703) 308-2089.
